Dear Sirs:

Our firm evaluated its hazardous waste generation rates prior to the August 18, 1980, notification deadline and determined that we met the criteria for a small generator exclusion under the provisions of 40 CFR 261.5. Since the RCRA regulations went into effect on November 19, 1980, we have encountered increasing difficulty in finding contract transporters willing to handle the wastes we do generate because of our lack of an EPA identification number. In order to ease this problem and because of uncertainty regarding possible future lowering of the exclusion limits, we have decided to file notification as a generator of hazardous waste.

Please do not hesitate to contact us if you require information in addition to that contained on the enclosed form.

Very truly yours,

Leon Henderson
